

Shrewsbury High School
Team 467 : The Duct Tape Bandits
Steering Committee Application

Team 467's primary governing body is through its steering committee. The responsibility of the steering committee is the continued success of the FIRST robotics program at Shrewsbury High School. Typical activities include approving a yearly budget, selection of competition sites and oversee travel planning, setting travel criteria, establishing team policies, and dealing with team issues when they arise. Student steering committee members represent the opinions and interests of **all** students on the team.

Criteria for being a Team 467 steering committee student member include:

- Being a returning high school team member. (Not including Lego robotics)
- Able to articulate ideas and opinions at committee meetings.
- Able to meet in the evenings once or twice a month for the length of the term. (1 Year)
- Talking with your peers about steering committee topics to gather information and opinion.

Steering committee student member selection process:

1. Complete and return this application form. Including gathering the signature of (at least) FIVE other team 467 student members, ONE teacher, and ONE parent who support your application for this position.
2. Participate in a formal interview. The date and time of which will be forthcoming.
